ADDENDUM NUMBER 3
17th Street Streetscape Improvements
PAV-IH-0316
3/2/2016

To all holders of Bid Documents; please be advised to the following:

THIS ADDENDUM DOES NOT CHANGE THE BID OPENING DATE

Answers to bidder questions:

1. In the Technical Specifications sections of the bid documents, there is a section for "Allowable Changes to the NCDOT 2012 Standard Specifications." Line item 10 states that "the contractor is to provide construction grades and line controls required to construct the project..." Page 18-9, paragraph 1820 states that "The City of Wilmington Engineering Department, Survey Division, shall provide necessary staking for the installation of the project." Please clarify who will be providing the survey required on this project.

The contractor is to provide construction grades and line controls required to construct the project. Please disregard Section 1820.

2. I see mention of a Traffic Signal pole being moved, but nothing on the plans.

The existing signal pole in the proposed pocket park area (sheet 3) is to be relocated to the corner between the sidewalk and street.

3. Line item 10, Fine Grading refers to NCDOT spec section 500. This section specifies Fine Grading to be paid at the contract lump sum price. Your line item is for 1860 SY, what areas will be paid under this item?

Fine grading will be paid for the landscape strip between the sidewalk and back of curb.

All other terms and conditions remain unchanged. Acknowledge receipt of this Addendum in the space provided in the Proposal. Failure to do so may disqualify the Bidder.

Daryle L. Parker, Purchasing Manager
